

NEWSLETTER

2008 was a good year for the snowmobile club. The membership grew to 225 paid members. We purchased a Tucker sno cat from the Twin Bridges Snowmobile Club in McGraw, New York. During the month of October we had it refurbished and painted.

The club in November had a multi purpose building installed in Limestone. We will use this building for the groomer and drag storage. Plus it is big enough to store signs, posts, and all other club equipment.

The trail was cleaned and signed by the time trails officially opened in Cattaraugus County on December 16th. A great deal of thanks goes out to the members who show up year after year to do this very important job. In recognition of their work and dedication each member who put in forty hours of trail work over the years were awarded a very nice club jacket. If anyone would like a jacket and is interested in working forty hours on the trail, please contact the trail chairman or you can purchase one from the club store on this web site.

Plans for the next year include the purchase of a Polaris Ranger which also can be used as a back up groomer.

You probably have noticed our newly designed web page. This page was professionally designed by Mellon Co. in Olean, NY. Any up coming club activities will be posted here. Members having a favorite digital photo may email it to www.enchantedmountainsborderriders@gmail.com and it will be uploaded to the picture gallery.

To all members and fellow snowmobile operators have a safe and fun year. Remember to operate your snowmobile sober and obey all posted signs. Our trail is operated on private land so treat it with respect and remember snowmobiling is not a right it's a privilege.

REMEMBER: PLEASE YIELD TO THE GROOMER
